PROFESSIONAL SUMMARY

Self-taught Frontend Developer with 1 year of hands-on experience building real-world personal projects. Focused on creating responsive, accessible, and high-performance interfaces using modern development practices and clean code principles.

Expanding into Full-Stack development with practical experience building REST APIs, implementing authentication, and integrating third-party services.

EXPERIENCE

CaloriePro – Full-Stack Health & Calorie Tracking App

February 2025 – April 2025

- Developed a React application featuring Firebase Authentication and real-time calorie tracking.
- Implemented automated daily data resets by building a FastAPI backend integrated with Google Cloud Scheduler.
- Integrated the Edamam API for real-time nutritional data | Deployed on Render.

BuyNow | E-commerce Simulation Platform

May 2025 – July 2025

- Built a full-stack e-commerce platform featuring Firebase authentication, shopping cart, wishlist, and a simulated checkout process.
- Implemented Stripe payment integration and real-time order tracking using an Express.js backend.
- Developed a 10-page responsive interface with public and private routing | Deployed on Render.

Portfolio | Personal Portfolio

December 2024 – January 2025

- Developed a responsive portfolio using HTML, CSS, and JavaScript to showcase projects and technical skills.
- Implemented a contact form featuring email validation and FormBold integration.
- Deployed on Render with a focus on clean UI/UX design principles.

ImageConverter | Full-Stack Image Processing Tool

November 2025

- Developed a modern web application for image format conversion and optimization using NestJS and React.
- Implemented secure processing featuring rate limiting and in-memory file management.

EDUCATION

Pontificia Universidad Católica de Valparaíso

2022 – 2023

Bachelor of Education in Biological Sciences

ConquerBlocks Academy

2025 – 2026

Master's in Full-Stack Web Development

ADDITIONAL INFORMATION

- Languages: English (B2 - Upper Intermediate) and Spanish (Native).
- Solid knowledge of frontend architecture, performance optimization, and UX best practices.
- Backend experience with Node.js, Express.js, and NestJS, including JWT-based authentication and PostgreSQL.
- Knowledge of Hexagonal Architecture and design patterns such as SOLID principles, Atomic Design, Backend for Frontend (BFF), Microservices, and Microfrontends.
